● PROJECTS

RAILWAY MANAGEMENT SYSTEM

The Railway Management System is a robust solution utilizing SQL for efficient organization of train, passenger, booking, schedule, and staff information. This system streamlines railway operations, ensuring data integrity and facilitating tasks such as reservations, scheduling, and staff management.

PORTFOLIO WEBSITE

Created a responsive portfolio website showcasing a range of web development projects.

ASP.NET

The Bookstore application is a web-based platform built using ASP.NET, designed to provide users with a convenient and efficient way to browse, purchase, and manage books online.
